

FIGURE NASCOSTE DI GOTTSCHALDT

vers. di Capitani et al., 1998

Dotare il soggetto di pennarello rosso

Compito del soggetto è scoprire una figura data nascosta in un'altra figura.

Prova preliminare: l'esaminatore mostra al Soggetto il foglio di prova dicendo: "in questo foglio ci sono due riquadri, in ognuno troverà una figura con a fianco una figura più complessa in cui è contenuta anche la prima figura, le do un pennarello rosso così potrà segnare sulla seconda figura la prima!". In questa fase vengono fornite tutte le spiegazioni necessarie per facilitare il riconoscimento e vengono corrette eventuali risposte errate.

Assicurarsi che il soggetto abbia ben compreso il compito prima di iniziare il test vero.

Punteggio: si assegna 1 punto per ogni figura nascosta correttamente identificata entro il tempo massimo consentito.

Nota Bene: per le 3 tavole A il soggetto ha a disposizione complessivamente 15 minuti, passare alla tavola successiva solo quando il soggetto ha concluso quella precedente, anche se il tempo impiegato eccede i 5 minuti a tavola (nelle prime due tavole).

Tempo Max: 5 min. per ogni tavola
